

NEW WAYS IN TEACHING WITH MUSIC

JEAN L. ARNOLD AND EMILY HERRICK, EDITORS

Liven the Tempo in Your ESL Classroom!

101 Activities and a Companion Website to Engage Students of All Levels!

Music is often one of the first introductions English learners have to the English language, forming strong impressions both on culture and English language development. Music has the ability to transcend boundaries and become more than entertainment when used as tool for introducing culture, practicing skills, and bringing creativity and life to the classroom.

New Ways in Teaching With Music shows how music can be incorporated into your lessons as a way to decrease anxiety, increase motivation and retention, and invigorate both students and teachers. This book is a collection of adaptable lessons that use music as a catalyst for effective, engaging, and enjoyable language learning.
